

Introduction to Microeconomics | Fall 2023

Taylor J. Weidman

4702 Posvar | taylorjweidman@pitt.edu

Course Description

Economists ask a big question, “What choices should we make when we can’t have everything?” Each of us make hundreds of choices every day as an individual and as a member of a larger social, economic, and political environment. This class is about this question, examining individual choices and how choices interact in groups. Tools in this class organize your thinking about decisions we face as individuals and as a society.

In Part A we begin by setting the table for the semester by building a model of cooperation, production, and shared benefit. In Part B we examine how markets can coordinate cooperation across large groups of decisionmakers. In Part C we introduce the concept of externalities in markets and some policy tools to correct the problem. In Part D we look at market failure more broadly and some non-market fixes. In Part E we consider how sellers’ decisions generate the supply curve, examining market power and decision dynamics. In Part F we close out the semester by building a model of buyers’ choices, generating the demand curve.

In this class there will be fewer traditional lectures than you might be familiar with and exams are always open book and low stakes. Economics relies heavily on mathematics as a cognitive stepstool, and proficiency in algebra is helpful for this class. But no matter who you are or where you’re coming from, if you’re willing to work hard, you are more than capable of excelling in the class. Welcome!

Classes meet in 120 David Lawrence Hall on most Mondays and Wednesdays at 12:00 PM and 1:00 PM. Lectures introduce new ideas, work through practice, run simulations, and offer MiniExams. Economics is learned through practice. Recitations offer a low-stakes environment to practice doing the work with a highly trained economist. Recitations are small groups of students broken out from the lecture and run by your teaching assistant later in the week, either Thursday or Friday, in another room.

Course Resources

There are many resources available to help you master the material. Some of your time should be spent on reading, some doing practice work, and some in discussion with me and your colleagues in class. Economics is best learned through practice, so put in the time to master it. Class resources include:

- **Teaching Assistants** are highly trained economists in the graduate department who are 1) your first person of contact with questions, and 2) facilitate weekly recitations. Do not hesitate to be in touch with your TA. In alphabetical order:
 - Arifah Roosiany Hasanbasri - ARH205@pitt.edu
 - Brianna Funderburk - BRF94@pitt.edu
 - Greg Scala - gregory.scala@pitt.edu
 - Mikhail Zavarzin - MIZ70@pitt.edu
 - Yu Qiu - YUQ23@pitt.edu
- **Canvas** holds the class together, where you’ll find

- Announcements
- Assignments
- Demos (practice problem videos)
- MiniExam information
- **The Textbook** for the class is Gregory Mankiw's, *Principles of Microeconomics*, in the 5th edition. You can find the text with a simple search. More recent editions include updated examples but no new topics. Any addition of the text will do, even other principles of microeconomics books are usable, but will involve more work on your part. Let me know if you have questions.
- **Gradescope** will be the portal to collect and return assignments.
- **Office Hours** are a great resource so come see me or your TA! Times are listed on Canvas.
- **Peer Mentors**

1. _____
2. _____
3. _____

Grading

No matter your grade in the class, you belong in my classroom. All assessments are designed to push you to do excellent work and convince both you and me of your critical thinking skills with as little unpleasantness as possible. I've deliberately designed the class with no busywork, trick questions, or high-stakes exams. And in return I expect you to work hard.

Your highest grades will count for a relatively large portion of your grade. This has the effect of lowering the stakes but also means you cannot simply add up the point totals to see how you are doing in the class. Your final grade will be based on the weighted average of six (out of seven) MiniExam scores.

MiniExams ($2 \times 20\% + 2 \times 15\% + 2 \times 10\% + 1 \times 0\% = 90\%$) are designed for you to demonstrate competency and mastery. Five MiniExams will take place during the first part of Tuesday class (*nearly*) every other week. Two MiniExams will take place during the final exam period. MiniExam A through MiniExam F are not cumulative. MiniExam Z, taken during the finals period, is cumulative. Your top two Miniexam scores will each count as 20% of your grade. Your third and fourth highest Miniexam scores will each count as 15% of your grade. Your fifth and sixth highest Miniexam scores will each count as 10% of your grade. Your lowest Miniexam score will be dropped. More details will be made available closer to the time.

During MiniExams:

1. You may use material from your notes and the textbook.
2. You may not use any electronic material, other than a calculator.
3. Your exam should be your own and is subject to the Academic Conduct Code (below). If you are **at all unclear** about a particular piece of material with respect to these two guidelines, it is your responsibility to clarify its appropriateness with the instructor. Please email with any questions about what constitutes an academic violation. This is taken very seriously.

Classwork ($13 \times 0.5\%$) are practice problems you work through together with classmates under the guidance of your recitation instructor. Group work is strongly encouraged. These assignments are collected at the end of every recitation. These assignments are graded primarily for effort.

Homework ($7 \times 0.5\%$) are practice problems you work through together with classmates at home. These assignments are collected (*roughly*) every other week at the end of recitation. Group work is strongly encouraged, but your work should be your own. These assignments are graded primarily for effort.

Missed work cannot be made up post-hoc. Contact me before the due date to apply for an extension if you anticipate submitting late work.

Self-Commitment Pledge

I agree to assign myself the reading, Classwork, Homework, and Miniexams.

Disability Services

If you have a disability for which you are or may be requesting an accommodation, you are encouraged to contact both your instructor and Disability Resources and Services (DRS), 140 William Pitt Union, (412) 648-7890, drsrecep@pitt.edu, (412) 228-5347 for P3 ASL users, as early as possible in the term. DRS will verify your disability and determine reasonable accommodations for this course.

Academic Conduct Code

Students in this course will be expected to comply with the [University of Pittsburgh's Policy on Academic Integrity](#). Any student suspected of violating this obligation for any reason during the semester will be required to participate in the procedural process, initiated at the instructor level, as outlined in the University Guidelines on Academic Integrity. This may include, but is not limited to, the confiscation of the examination of any individual suspected of violating University Policy. Furthermore, no student may bring any unauthorized materials to an exam, including dictionaries and programmable calculators.

All students are expected to adhere to the standards of the University of Pittsburgh's Policy on Academic Integrity. Any violation is a serious matter. Any student engaged in cheating, plagiarism, or other acts of academic dishonesty would be subject to disciplinary action, may 1) receive a zero on the exam counting for 20% of their class grade, or 2) receive an F in the class.

Final Notes

1. This class is designed for you to succeed. Work hard, be prepared, and don't hesitate to seek us out when you need help!
2. Students are responsible for all covered materials, announcements, and assignments.
3. I expect you to complete and upload your work early enough that you have time to work through any technology problems you run into. Please email me as soon as you run into problems.
4. I reserve the right to modify materials/procedures.

Course Schedule (*Tentative*)

(next page)

Week 1. (August 28/30/Rec.)	Week 2. (September 6/Rec.)
Part A. Class Intro; Production Possibilities	Part A. Trade
Due. Ch. 1, 2, 3	Due. Homework A
Week 3. (September 11/13/Rec.)	Week 4. (September 18/20/Rec.)
Part B. Supply; Demand; Markets; Equilibrium	Part B. Consumers; Producers; Efficiency
Due. MiniExam A; Ch. 4, 5, 7	Due. Homework B
Week 5. (September 25/27/Rec.)	Week 6. (October 2/4)
Part C. Externalities; Public Goods	Part C. Taxes; Subsidies; Elasticity
Due. MiniExam B; Ch. 5, 6, 8, 10	Due. Love and support yourself and your classmates
Week 7. (October 9/11/Rec.)	Week 8. (October 16/18/Rec.)
Part CX. International Trade	Part D. Game Theory; Common Resources
Due. Ch. 9; Homework C	Due. MiniExam C; Ch. 11
Week 9. (October 23/25/Rec.)	Week 10. (Oct. 30/Nov. 1/Rec.)
Part D. Public Goods; Public Choice	Part E. Costs
Due. Homework D	Due. MiniExam D; Ch. 13
Week 11. (November 6/8/Rec.)	Week 12. (November 13/15/Rec.)
Part E. Perfect Competition; Monopoly	Part E. More Game Theory; Oligopoly
Due. Homework E1; Ch. 14, 15	Due. Homework E2; Ch. 16, 17
Week 14. (November 27/29/Rec.)	Week 15. (December 4/6/Rec.)
Part F. Factors of Production; Labor Market	Part F. Consumer Choice
Due. MiniExam E; Ch. 18	Due. Ch. 21

Finals Schedule (MiniExam F+Z)	
M/W 12:00 PM	M/W 1:00 PM
TBD	TBD

While the final grade breaks will depend on the exact distribution of scores, the worst case scenario is as follows:

97.0% and above	A+	93.0% to 96.9%	A	90.0% to 92.9%	A-
87.0% to 89.9%	B+	83.0% to 86.9%	B	80.0% to 82.9%	B-
77.0% to 79.9%	C+	73.0% to 76.9%	C	70.0% to 72.9%	C-
67.0% to 69.9%	D+	63.0% to 66.9%	D	60.0% to 62.9%	D-

Below 60% is an F. All grades are rounded to the nearest tenth of a percent.
