MiniExam F | Version 1

This MiniExam will take 15 minutes with quick break to follow. MiniExams are designed to both test your knowledge and challenge you to apply familiar concepts in new environments. Treat it as if you're trying to show me that you understand the material. Answer clearly and completely.

Academic Conduct Code | Name: TAYLOR Student ID: 😊

The following academic conduct code is designed to protect the integrity of your work. Print your name/initials beside the three academic honesty agreements. I pledge to my fellow students, the university, and the instructor, that:

- ☐ I will complete this MiniExam solely using my own work.
- ☐ I will not use any digital resources unless explicitly allowed by the instructor.
- ☐ I will not communicate directly or indirectly with others during the MiniExam.

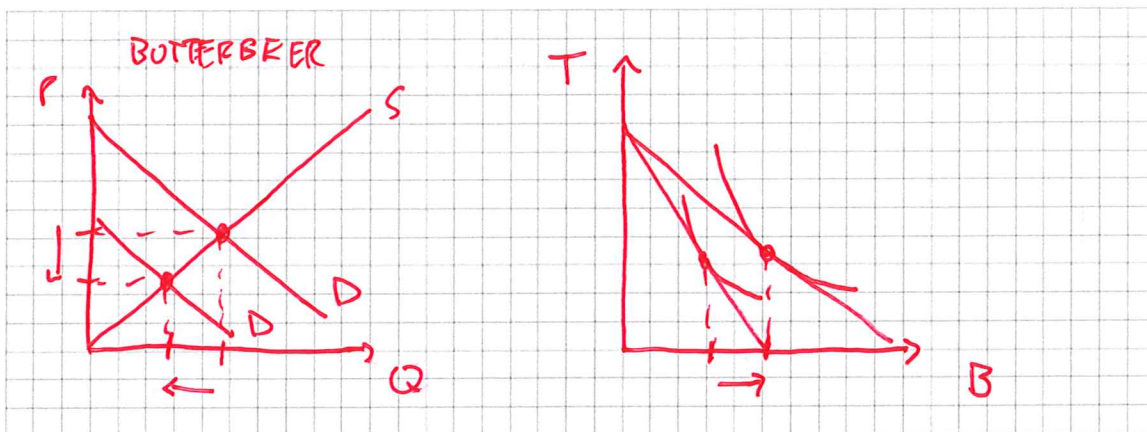

10 pts

Arthur's Problem

Arthur Weasley, known for his fascination with Muggle artifacts, has recently started a part-time job as tourguide of the Museum of Muggle Artifacts, earning an hourly wage. Arthur divides his income between Bottled Butterbeer (B) and Treacle Tarts (T) (both of which are normal goods). In each of the consumer's problems below, illustrate Bottled Butterbeer on the horizontal axis and Treacle Tarts on the vertical axis.

Q1 | Starlight Elixir

Use two graphs to show what would happen to Arthur's choice of Bottled Butterbeer after a substitute good "Starlight Elixir" enters the market, as many who used to drink Butterbeer shift toward the new good. Arthur has been busy and hasn't yet heard about the new drink, so his preferences haven't been affected.

Change in Butterbeer Market: DEMAND, SUPPLY, NEITHER

Change in Arthur's Quantity of B: DOWN, NONE, UP

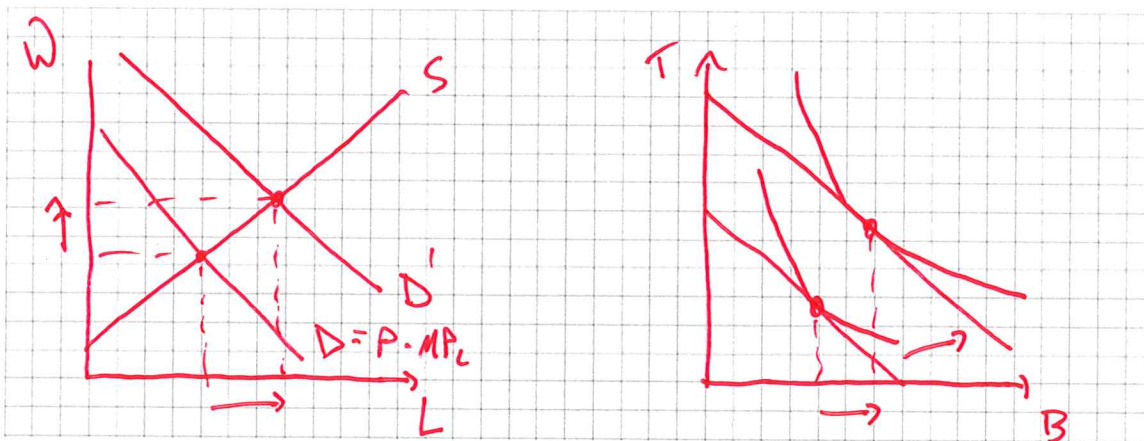

Change in P_B : DOWN, NONE, UP

Change in Y: DOWN, NONE, UP

Ask for "Budget" next time

Q2 | Rare Muggle Items

Use two graphs, one of the labor market and one of the consumer's problem, to show what would happen to Arthur's choice of Bottled Butterbeer after the Museum of Muggle Artifacts, where Arthur Weasley works, recently unveiled an interactive exhibit featuring rare Muggle items, drawing in new wizards and witches.

Change in Labor Market: DEMAND, SUPPLY, NEITHER

Change in Wages: DOWN, NONE, UP

Change in Employment: DOWN, NONE, UP

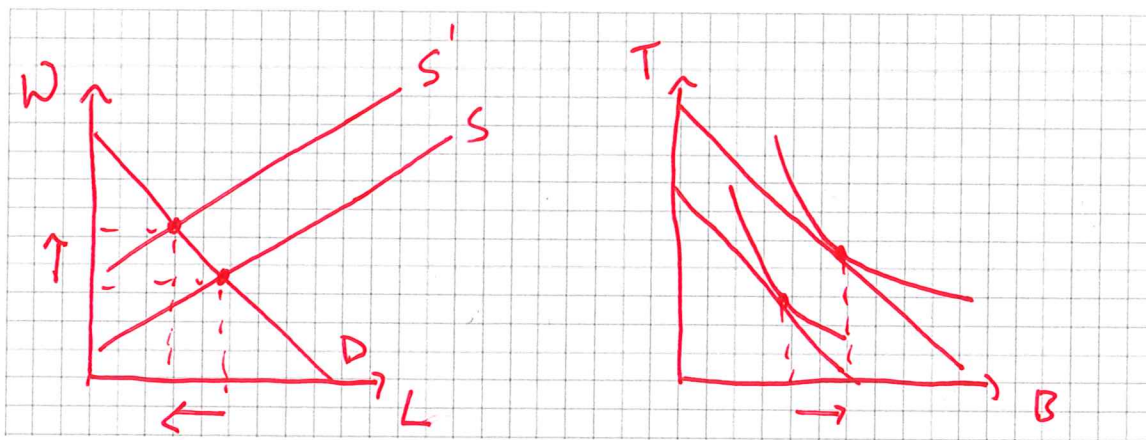

Change in Y: DOWN, NONE, UP

Change in P_B : UP, NONE, DOWN

Change in Arthur's Quantity of B: DOWN, NONE, UP

Q3 | Museum Policy Change

Although Arthur loves his job, many employees at the Museum of Muggle Artifacts have considered leaving their jobs due to a recent policy change that restricts the use of magic within the museum. If Arthur stays at his job, use two graphs to show what would happen to Arthur's choice of Bottled Butterbeer after this policy change.

Change in Labor Market: DEMAND, SUPPLY, NEITHER

Change in Wages: DOWN, NONE, UP

Change in Employment: DOWN, NONE, UP

Change in Y: DOWN, NONE, UP

Change in P_B : UP, NONE, DOWN

Change in Arthur's Quantity of B: DOWN, NONE, UP

Arthur's Problem

Arthur Weasley, known for his fascination with Muggle artifacts, has recently started a part-time job as tourguide of the Museum of Muggle Artifacts, earning an hourly wage. Arthur divides his income between Bottled Butterbeer (B) and Treacle Tarts (T) (both of which are normal goods). In each of the consumer's problems below, illustrate Bottled Butterbeer on the horizontal axis and Treacle Tarts on the vertical axis.

Q1 | Three Broomsticks Change

Use two graphs to show what would happen to Arthur's choice of Bottled Butterbeer after The Three Broomsticks, a shop nearby, stops serving Butterbeer, causing many wizards to switch to bottled Butterbeer. Arthur's preferences haven't changed.

Change in Butterbeer Market: DEMAND SUPPLY, NEITHER
Change in Arthur's Quantity of B: DOWN NONE, UP

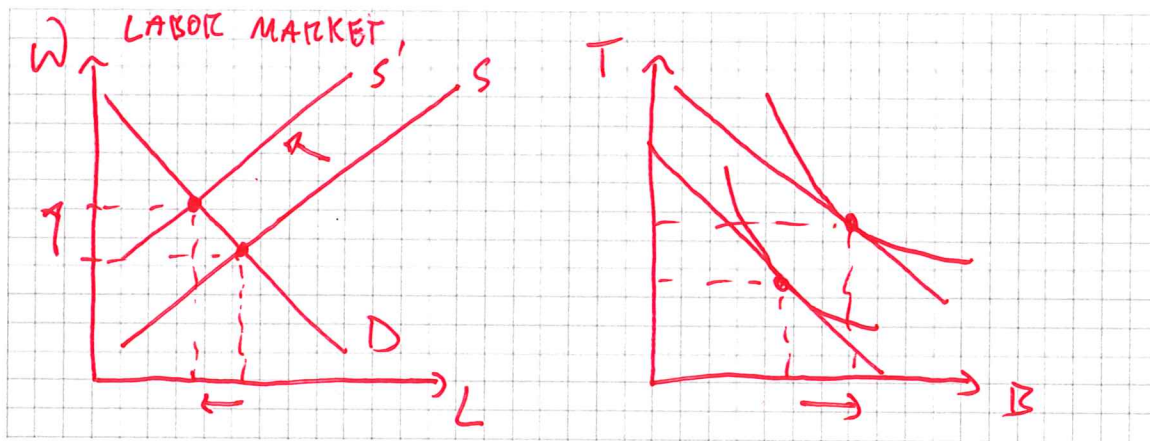

Change in P_B : DOWN, NONE, UP
Change in Y: DOWN, NONE UP

Ask for "budget" next time

Don't use this question again.

Q2 | New Job Opportunity

Use two graphs, one of the labor market and one of the consumer's problem, to show what would happen to Arthur's choice of Bottled Butterbeer after a magical cleaning service begins offering jobs to museum workers, attracting many employees away.

Change in Labor Market: DEMAND, SUPPLY, NEITHER

Change in Wages: DOWN, NONE, UP

Change in Employment: DOWN, NONE, UP

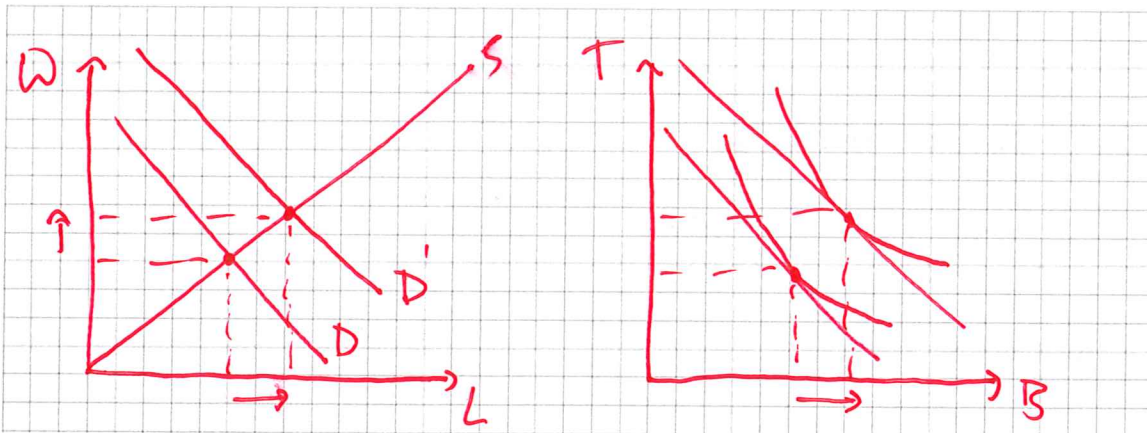

Change in Y: DOWN, NONE, UP

Change in P_B : UP, NONE, DOWN

Change in Arthur's Quantity of B: DOWN, NONE, UP

Q3 | Extended Hours

The Museum of Muggle Artifacts has extended its operating hours, requiring more work from its current employees. Use two graphs to show what would happen to Arthur's choice of Bottled Butterbeer after this policy change.

Change in Labor Market: DEMAND, SUPPLY, NEITHER

Change in Wages: DOWN, NONE, UP

Change in Employment: DOWN, NONE, UP

Change in Y: DOWN, NONE, UP

Change in P_B : UP, NONE, DOWN

Change in Arthur's Quantity of B: DOWN, NONE, UP

ECON 0100 | Fall 2024

MiniExam F | Version 3

This MiniExam will take 15 minutes with quick break to follow. MiniExams are designed to both test your knowledge and challenge you to apply familiar concepts in new environments. Treat it as if you're trying to show me that you understand the material. Answer clearly and completely.

Arthur's Problem

Arthur Weasley, known for his fascination with Muggle artifacts, has recently started a part-time job as tourguide of the Museum of Muggle Artifacts, earning an hourly wage. Arthur divides his income between Bottled Butterbeer (B) and Treacle Tarts (T) (both of which are normal goods). In each of the consumer's problems below, illustrate Bottled Butterbeer on the horizontal axis and Treacle Tarts on the vertical axis.

Q1 | Production Innovation

Use two graphs to show what would happen to Arthur's choice of Bottled Butterbeer after a new brewing technique significantly reduces the cost of making Butterbeer. Arthur's preferences haven't changed. Do this differently next time.

Change in Butterbeer Market: DEMAND, SUPPLY, NEITHER

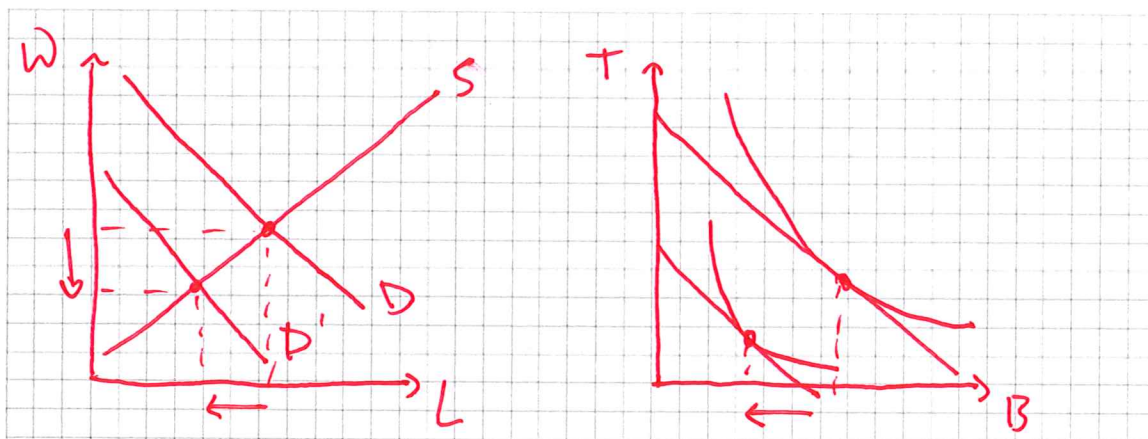

Change in Arthur's Quantity of B: DOWN, NONE, ~~UP~~

Change in P_B : DOWN, NONE, UP

Change in Y: DOWN, NONE, UP

Q2 | Museum Renovation

Use two graphs, one of the labor market and one of the consumer's problem, to show what would happen to Arthur's choice of Bottled Butterbeer after the museum closes several exhibits for renovation, reducing the need for tour guides.

Change in Labor Market: DEMAND, SUPPLY, NEITHER

Change in Wages: DOWN, NONE, UP

Change in Employment: DOWN, NONE, UP

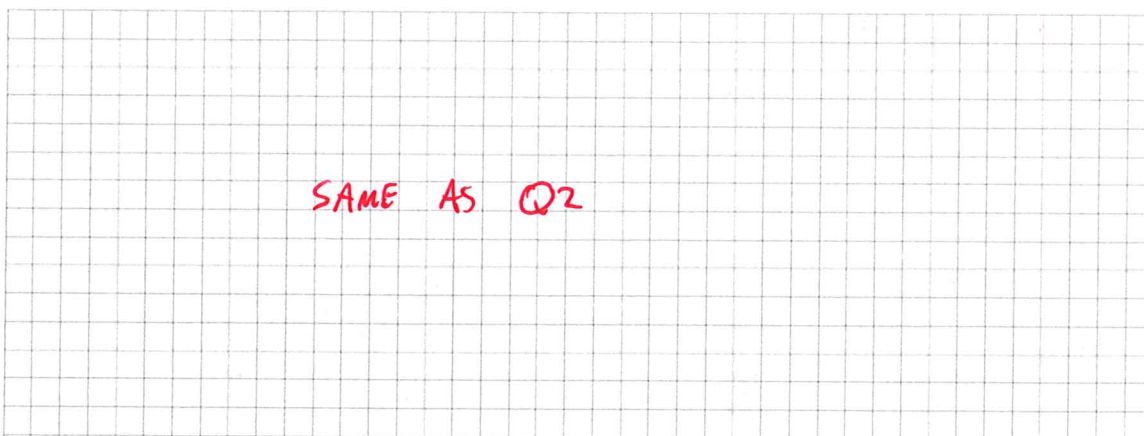

Change in Y: DOWN, NONE, UP

Change in P_B : UP, NONE, DOWN

Change in Arthur's Quantity of B: DOWN, NONE, UP

Q3 | Reduced Hours

The Museum reduces work hours for all employees to cut costs. Use two graphs to show what would happen to Arthur's choice of Bottled Butterbeer after this policy change.

Change in Labor Market: DEMAND, SUPPLY, NEITHER

Change in Wages: DOWN, NONE, UP

Change in Employment: DOWN, NONE, UP

Change in Y: DOWN, NONE, UP

Change in P_B : UP, NONE, DOWN

Change in Arthur's Quantity of B: DOWN, NONE, UP

Arthur's Problem

Arthur Weasley, known for his fascination with Muggle artifacts, has recently started a part-time job as tourguide of the Museum of Muggle Artifacts, earning an hourly wage. Arthur divides his income between Bottled Butterbeer (B) and Treacle Tarts (T) (both of which are normal goods). In each of the consumer's problems below, illustrate Bottled Butterbeer on the horizontal axis and Treacle Tarts on the vertical axis.

Q1 | Health Trend

Use two graphs to show what would happen to Arthur's choice of Bottled Butterbeer after new research suggests Butterbeer has unexpected health benefits, causing increased demand. Arthur's preferences haven't changed.

Do this differently next time.

Change in Butterbeer Market: DEMAND, SUPPLY, NEITHER

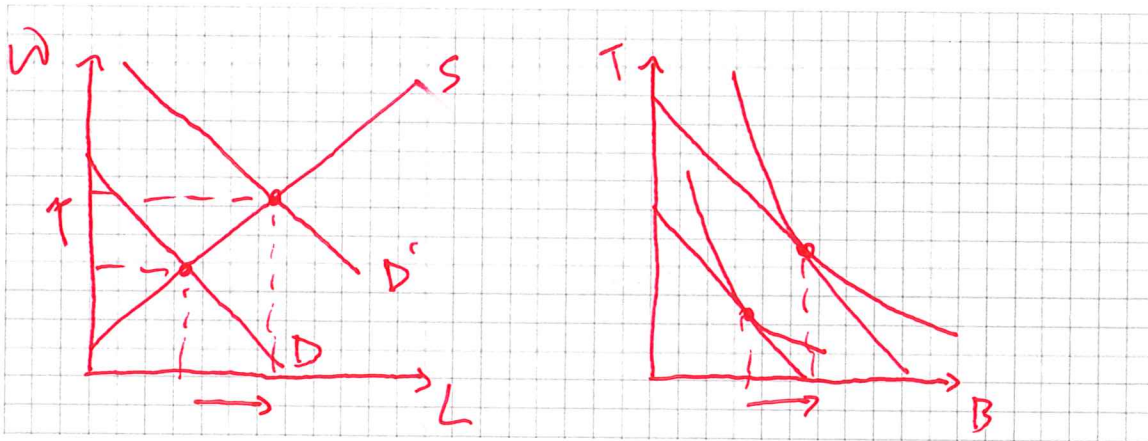

Change in Arthur's Quantity of B: DOWN, NONE, ~~UP~~

Change in P_B : DOWN, NONE, UP

Change in Y: DOWN, NONE, UP

Q2 | International Tourism

Use two graphs, one of the labor market and one of the consumer's problem, to show what would happen to Arthur's choice of Bottled Butterbeer after an international transit station opens nearby, increasing foreign tourism to the museum.

Change in Labor Market: DEMAND, SUPPLY, NEITHER

Change in Wages: DOWN, NONE, UP

Change in Employment: DOWN, NONE, UP

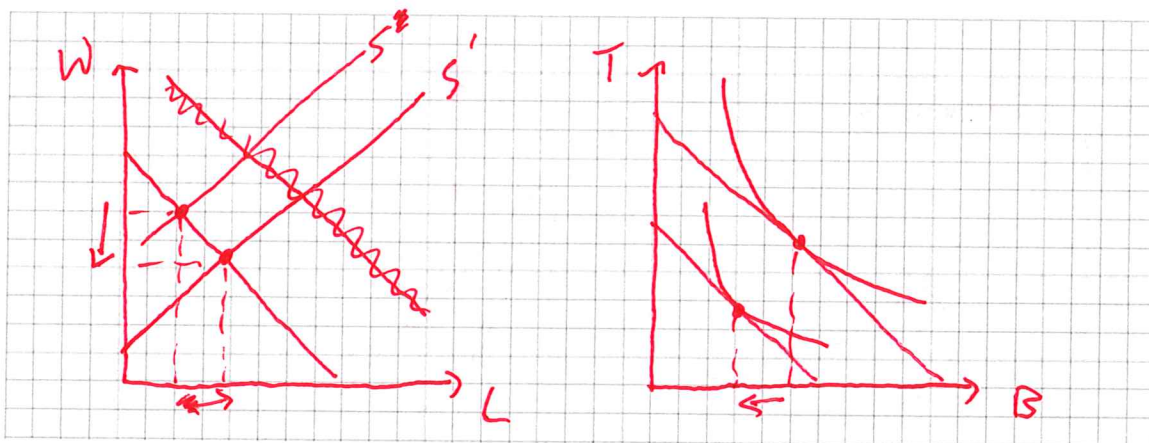

Change in Y: DOWN, NONE, UP

Change in P_B : UP, NONE, DOWN

Change in Arthur's Quantity of B: DOWN, NONE, UP

Q3 | Weather Charm

The Museum installs a new weather-control charm that makes the work environment more pleasant for employees. Use two graphs to show what would happen to Arthur's choice of Bottled Butterbeer after this policy change.

Change in Labor Market: DEMAND, SUPPLY, NEITHER

Change in Wages: DOWN, NONE, UP

Change in Employment: DOWN, NONE, UP

Change in Y: DOWN, NONE, UP

Change in P_B : UP, NONE, DOWN

Change in Arthur's Quantity of B: DOWN, NONE, UP
